

Gen-AI Ground Rules

Remember:
Test your prompts in the Playground before using in Scratch or Python.

Never input personal or sensitive information into an AI model or a provider.

Is this information about a real person (including yourself)?

YES

NO

Could this information be used to impersonate someone or steal their identity?

YES

NO

Does it include any personally identifiable information (like full name, address, phone number, or email)?

YES

NO

Does it contain any sensitive personal information (like passwords, health info, or anything private)?

YES

NO

Would you feel comfortable posting this publicly on the internet?

YES

NO

You probably shouldn't put this in your prompt.

You can put it in your prompt if you answered NO to all the questions.

If you're not sure, ask a mentor!
